Executive Summary

Out-of-Stock Executive Summary - Monday, April 7, 2025

We currently have 17 products out of stock, losing $2,817.95 in daily revenue and $81,096.93 in missed profit to date. The most critical issue is SCH-10042 Western Trail Saddle Flex Tree, which has been generating $19,158.66 in monthly profit but requires 96 days lead time from Pacific Rim Imports. This item alone has cost us $38,955.94 in missed profit. The second major concern is SCH-10057 Billy Royal Western Show Saddle, also from Pacific Rim Imports with 96-day lead time, representing $10,429.20 in monthly profit and $22,944.24 in missed profit. Both require immediate reorder.

Our supplier concentration presents significant risk, with Pacific Rim Imports accounting for $46,938.41 per month in at-risk profit across 9 flagged items, followed by Mountain Horse EU at $33,980.99 across 8 items. The Tack & Saddles category shows the highest financial exposure at $36,989.07 monthly profit at risk, while Riding Apparel follows at $35,770.57. Dover Wholesale has 13 flagged items but lower financial impact at $9,195.91 monthly profit at risk. With 55 additional products flagged for restock or showing soon-to-stockout status,

our total monthly profit at risk reaches $140,155.42.

April marks a critical seasonal transition. Fly & Insect Control demand is at 1.0x current levels and will increase over the next three months, making SCH-10030 Fly Predators Monthly Supply 5-Pack particularly urgent despite its shorter 31-day lead time. Conversely, Blankets & Sheets demand sits at 0.4x and will decrease further, providing some buffer for items like SCH-10001 Contour Collar Classic Surcingle Turnout Blanket. However, with 70-day lead time, this blanket still requires immediate attention to avoid extended stockouts through the low season.

Flags: OOS = Already out of stock · Restock = Will stock out before restock arrives · Soon = Tight window, order now · Watch = Order within 30 days · Healthy = Sufficient stock

Tiers: Critical = Over $5,000/mo profit at risk · High = $1,000-$5,000/mo · Medium = $250-$1,000/mo · Watch = Under $250/mo profit at risk

Category Analysis

Blankets & Sheets: With demand dropping to 0.2x in June-July and 61-day lead times, reorder the Contour Collar Classic Surcingle Turnout Blanket now to avoid extended stockouts during the seasonal decline.

Fly & Insect Control: This category faces peak season with 27% OOS rate as demand increases to 1.7x by July. Expedite review of the Fly Predators Monthly Supply 5-Pack and other flagged items immediately given the 28-day lead times.

Tack & Saddles: Despite stable seasonal demand, the Western Trail Saddle Flex Tree represents $19,158.66 monthly profit loss. Reorder now given the 65-day average lead time from suppliers.

Riding Apparel: Zero stockouts but 8 restock flags indicate proactive inventory management is working. Monitor closely as 78-day lead times require early action.

Barn & Stable: Low 5% OOS rate with short 28-day lead times suggests good category health. The single OOS item requires investigation for stale inventory status.

Grooming: Two stockouts with minimal profit impact suggest these may be slow-moving items. Investigate whether the Rubber Curry Comb Original should be formally discontinued.

Supplements & Health: Clean category with no stockouts and 27-day lead times. Current restock flags appear manageable with existing supplier relationships.

Boots & Wraps and **Horse Tack Accessories**: Both show good inventory health with minimal exposure.

Rider Accessories: High 25% OOS rate requires investigation given the low profit impact.

Supplier Risk: Pacific Rim Imports poses the highest risk with $46,938.41 monthly exposure and 96-day lead times across multiple categories. Mountain Horse EU's 77-day lead times also create vulnerability for $33,980.99 in monthly profit.

Needs Investigation

OOS 60+ days with stale restock dates

Nine products have been out of stock for over 60 days, representing $40,405.51 in combined monthly profit when in stock and $78,739.95 in estimated missed profit. Pacific Rim Imports accounts for three of these items, including two high-value saddles (SCH-10057 and SCH-10042) that together represent $29,587.86 in monthly profit. Each item requires a sourcing decision: reorder now, find alternative supplier, or formally discontinue.

SCH-10027 Premium Fly Mask with Ears
